### Hotel offers free coffee and wi-fi

**Published Date:** 02 March 2009

**By** john kravevich

BUSINESS users across Peterborough are being invited to take advantage of free wi-fi access, courtesy of the Park Inn Hotel.

Guests of the hotel are being offered free coffee and wi-fi until the end of March, including non-residents.

The wi-fi is provided by Airangel, a leading supplier of branded wired and wireless internet access. The portal installed at the hotel provides a virtual concierge service.

Hotel general manager James Berry said: "We have received a great response for the offer, and are delighted that we can extend it until the end of March.

"We can cater for all kinds of meeting requirements, and our offer is proving popular among the business community in Peterborough. It is the little savings that can make a big difference."

The free wi-fi service and coffee are available until the end of March, Monday to Fridays, between 10am and 4pm.
